

STI WIRELESS TRANSMITTERS AND SENSORS

STI-34151

STI-34401

STI-34601

STI-34752

KEY FEATURES

General Information

- Alerts when a monitored site is tripped.
- Wirelessly monitor up to 4 or 8 different devices and know what is happening in or around your home/building.
- Monitor: open/closed garage door, mail delivery, car in the driveway, open exit door, removed fire extinguisher, fence gate, medicine cabinet, window, etc.

Installation

- Installation options include: an on board reed switch, set of terminals (remote) or as a tilt switch (excludes Wireless Driveway Monitors).
- Includes a magnetic contact with 18" lead for irregular installations.
- Easy installation.

Electronics

- Requires a 4-Channel Voice Receiver (STI-V34104) or 8-Channel Receiver (STI-34108). Receivers will chime and flash, alerting a monitored site has been tripped.
- Operates up to 1000' (line of sight) range between transmitters and receivers. STI-34601 offers 500' line of sight range.
- Includes battery.

Options

- Several kits and accessories available.

PRODUCT OVERVIEW

STI transmitters and sensors alert of: open/closed garage door, mail delivery, car in the driveway, open exit door, removed fire extinguisher, fence gate, medicine cabinet, etc. STI receivers monitor up to 4 or 8 different STI devices at a single, convenient location and will chime or speak custom voice messages when a monitored transmitter is triggered, alerting users to the happenings in their home/building.

HOW IT WORKS

Wireless Driveway Monitor – Battery Powered (STI-34151)

This Motion Alert® detects when a vehicle enters or leaves a driveway. Movement of large metallic (iron or steel) object close to the driveway sensor will transmit a signal to an STI receiver.

Wireless Mail Alert® (STI-34201)

When a mailbox door is opened, an STI receiver will alert, eliminating repeat trips to an empty mailbox.

Wireless Garage Sentry® Alert (STI-34301)

STI receiver alerts when garage door is opened and provides an open or closed door status.

Wireless Universal Alert or Wireless Door Entry Alert® (STI-34401 or STI-34501)

Universal Alert will let you know if the monitored site is tripped. A wireless signal is sent to an STI receiver. Can be used on a medicine cabinet, fence gate, window, shed, etc.

Wireless Doorbell Button Alert (STI-34601)

Water/weather resistant button sends a wireless signal to an STI receiver when pressed. Operates up to 500' (line of sight).

Wireless Motion Detector Alert – Indoor or Outdoor (STI-34752)

When sensor detects movement in a monitored area, a wireless signal is sent to an STI receiver. To conserve battery, when sensor is tripped it will not activate for three minutes.

STI Wireless Transmitters and Sensors

Dimensions and Technical Information

MODELS AVAILABLE

Transmitters

- STI-34151 Wireless Driveway Monitor (battery powered)
- STI-34201 Wireless Mail Alert®
- STI-34301 Wireless Garage Sentry® Alert
- STI-34401 Wireless Universal Alert
- STI-34501 Wireless Door Entry Alert®
- STI-34601 Wireless Doorbell Button Alert
- STI-34752 Wireless Indoor/Outdoor Motion Detector Alert

Accessories

- STI-V34104 4-Channel Voice Receiver
- STI-34108 8-Channel Receiver
- STI-30105 Extended Antenna (7 foot cord length)
- STI-34106 Key Fob for Wireless Alert Series

APPROVALS

TESTING

- FCC & IC Compliant

4-Channel Voice Receiver Kits

- STI-V34150 Wireless Driveway Monitor (battery powered)
- STI-V34200 Wireless Mail Alert®
- STI-V34300 Wireless Garage Sentry® Alert
- STI-V34400 Wireless Universal Alert
- STI-V34500 Wireless Door Entry Alert®
- STI-V34600 Wireless Doorbell Button Alert
- STI-V34760 Wireless Indoor/Outdoor Motion Detector Alert

Single Channel Slave Receiver Kits

- STI-34159 Wireless Driveway Monitor (battery powered)
- STI-34209 Wireless Mail® Alert
- STI-34309 Wireless Garage Sentry® Alert
- STI-34409 Wireless Universal Alert
- STI-34609 Wireless Doorbell Button Alert
- STI-34759 Wireless Indoor/Outdoor Motion Detector Alert
- STI-6400WIR9 Wireless Exit Stopper® Multifunction Door Alarm
