

# STI POLYCARBONATE ENCLOSURE

STI-7510A

STI-7511D

## PRODUCT OVERVIEW

Multipurpose lockable enclosure for a wide range of larger size devices, components and instruments, such as keypads, annunciators and automated external defibrillators (AEDs) which require protection from vandalism, accidental damage, as well as the elements, such as dirt and grime. Spacers, integrated hinge and covers are formed from tough polycarbonate material. The polycarbonate enclosures are backed by a three year guarantee against breakage and damage in normal use. STI enclosure is lockable with either a key or thumb lock.

## KEY FEATURES

### General Information

- Protection for large units against physical damage, grime and severe environments.
- Can be used over volume or lighting controls.
- Each protected unit can be clearly seen and quickly identified.
- Three year guarantee against breakage of polycarbonate in normal use.

### Construction

- 94V-2 flammability rating.
- Cover, integrated hinge and spacers are formed from tough polycarbonate material.

### Installation

- Fast and easy installation.
- Mounting hardware and gaskets are included.
- Typical working properties of polycarbonate are -40° to 250°F (-40° to 121°C).

### Options

- Key or thumb lock available.
