

POLYCARBONATE COVERS

STI-7700

STI-7730

PRODUCT OVERVIEW

These super tough covers offer an excellent way to help prevent theft and vandalism to larger keypads, access controls, volume and lighting controls, and similar devices. Molded of clear polycarbonate (extremely difficult to break), each protected unit can be clearly seen and quickly identified. Covers increase the life and reliability of units by protecting them from accidental or intentional damage. Each model has a strong piano style hinge, and they are available with an open back box or enclosed back box, with or without a lock.

BACKED BY A THREE YEAR GUARANTEE

As all STI protective covers, these Polycarbonate Covers are backed by a three year guarantee against breakage in normal use.

KEY FEATURES
