The Electronic Watchdog That Never Sleeps!

Rely on STI®

ED-50

Safety Technology International
Like father, like son. Introducing the next generation of Rex, the famous barking dog alarm. In addition to the sound of a ferocious, attack dog, Rex Plus offers the sounds of the rainforest. Choose the sound that suits you best. Try the continual sounds of the rainforest, or the option that allows you to use these same sounds as an annunciator. Another option includes an angry, barking dog followed by the sound of a siren for 20 seconds. Rex Plus is versatile and provides an excellent way to deter burglars, without the annoying problems of owning a real dog. With his electronic radar eyes, Rex Plus can “see” through doors, walls and glass. And once his cord is plugged into any standard 110 VAC electrical outlet, he will stay on duty around the clock, indefinitely.

**Rex Plus® Features Include**

- Your choice of four sounds:
  - Continuous sound of the rainforest
  - Barking sound of a ferocious attack dog
  - Sounds of the rainforest to announce the arrival of visitors
  - Barking dog and warning siren
- Very realistic - barking gets more frequent as movement gets closer.
- Switches from the watchdog to the tranquil sounds of nature with the simple slide of a switch.
- Senses movement through walls, doors and glass.
- Variable distance sensitivity (up to 30’) as well as volume control.
- No installation required.

**Operation Instruction**

1. Insert the adaptor plug into the unit, then plug AC adapter into outlet.
2. Choose the feature you wish by adjusting the switch on the back of the unit.
   a. Rainforest (sound is continuous).
   b. Watchdog - Detects moving objects. When Rex “sees” movement, barking gets more frequent.
   c. Rainforest (entrance chime) - As the visitor approaches, the unit will sing the melody to announce the arrival of visitors.
   d. Watchdog and Warning Siren - When Rex “sees” movement, the device will bark and a siren will alarm for 20 seconds.
3. Turn on the “VOLUME” switch and adjust the required “RANGE.”

Note: Generally, the “RANGE” is adjusted to its maximum before delivery. Therefore, it needs no further adjustment. In case it is too sensitive, turn the knob in a counter-clockwise direction to reduce the range.

Operation Instruction Caution: Rex Plus is designed for use indoors. The unit should be placed at a height of 3-5 feet from the floor to obtain the widest range of detection. The position and sensitivity may be adjusted until optimal performance is reached. Setup may take time and patience.
Detection Efficiency

Rex Plus’s radar waves can detect through a variety of materials with maximum efficiency. The following chart serves as a guide.

<table>
<thead>
<tr>
<th>MATERIAL</th>
<th>EFFECT ON RANGE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Glass</td>
<td>medium reduction</td>
</tr>
<tr>
<td>Wooden (Hollow) Doors</td>
<td>slight reduction</td>
</tr>
<tr>
<td>Plaster Walls</td>
<td>medium reduction</td>
</tr>
<tr>
<td>Metal (steel, bronze, aluminum)</td>
<td>heavy reduction (detection is possible when metal is moving or there is a clearance)</td>
</tr>
<tr>
<td>Curtain Material</td>
<td>slight reduction</td>
</tr>
<tr>
<td>Fiberglass or Plastic</td>
<td>medium reduction</td>
</tr>
<tr>
<td>Paper Cartons</td>
<td>slight reduction</td>
</tr>
</tbody>
</table>

Electrical Specifications

Rex Plus consumes very little electrical power when in the “detecting” mode, but uses more power when barking.

- Power Supply: 12 VDC, 100 mA
- Frequency: 2.4 GHz
- Net Weight (lbs.): 2.2 lbs., including AC adapter
- Power Detecting: 0.22 Watts
- Power Barking: 2.6 Watts
- Size (inches): 6” long x 5 1/8” wide x 7 1/2” high

General Performance

- Distant approach: single or several barks
- Medium distance: single/multiple barks
- Close approach: fierce, continuous barks

The ED-50 microwave operates at 2.4GHz. This is the same frequency as microwave ovens and home WiFi. These devices can and may cause occasional false triggers of the ED-50. Microwaves reflect off all surfaces causing detection inside a room. The higher the sensitivity is set, increased microwave reflection may occur. Operation or placement in an unoccupied room may optimize performance.

Warranty

Safety Technology International, Inc. warrants to the original consumer/purchaser that this product shall be free of defects in material and workmanship under normal use and circumstances for a period of ninety (90) days from the original date of purchase.

We protect the things that protect you.
