STI LATCHING/TIMER MODULE

PRODUCT OVERVIEW
Our 12-24 VAC/VDC digital timer is a reliable and highly accurate simple solution to many complex timing applications. A momentary contact closure begins the timing cycle (15, 30, 45 seconds or ∞) and latches a set of Form “C” dry contacts. The compact design makes it versatile for many applications.

For example, when used on an egress door, the supervised contacts can be set to either ‘Fail Safe’ or ‘Fail Secure’ mode. A built-in reset feature allows the circuit to reset after a single operation or a single door open and close (single passage) before timing expires. This prevents re-entry of any unauthorized personnel.

STI Latching/Timer Module
Dimensions and Technical Information

MODELS AVAILABLE
LT-1  Latching/Timer Module
LT-1UL Latching/Timer Module UL Listed

Specs:
Dry Contacts  3A 125 VAC  3A 30 VDC
Circuit Requirements  12-24 VAC/VDC < 15mA

APPROVALS & WARRANTY

TESTING
LT-1UL has been tested and approved or listed by:
· UL/cUL Listed to UL 294

WARRANTY
One year guarantee on electro mechanical and electronic components.

POWER "ON" GREEN LED
RELAY ACTIVE RED LED

1.3 in. (33mm)
1.75 in. (44mm)

1.65 in. (41mm)

12 to 24 Volts AC or DC
