STI STOPPER®
STATION SERIES

PRODUCT OVERVIEW
These ADA Compliant, multipurpose push button switches cover a wide range of applications both indoors and outdoors. They’re called Stopper Stations. They incorporate a unique, patented design that helps dramatically to stop accidental activation. A number of standard models are available or we can create custom units to meet your needs exactly. You have your choice of any of six universal shell colors, several button styles, standard or custom wording and language.

HOW THEY WORK
Because of their superior, patented design combined with quality construction throughout, you can expect outstanding performance for years to come. In fact, many STI customers are surprised to find that all this quality is available at no increase in price. Plus, customers appreciate the option to protect the switches with STI protective covers that carry a three year guarantee against breakage in normal use, one year on electro mechanical and electronic components. For indoor applications, you can order your Stopper Station with a pre-alarm cover to help stop malicious and accidental activation.

Covers to protect your STI Stopper Station from damage or weather and to help stop
malicious or accidental activation.

Stopper® Station Shield
(Cover 2, A)

This inexpensive and highly durable cover, with or without alarm, was invented to mount directly onto the Stopper
Station series of buttons with two tabs that snap into the
Stopper Station shell. It takes hard knocks in stride while
protecting the button against vandalism, damage and accidental activation. Ideal for use when space is limited.

No labeling can be placed on the Stopper Station shield.

Universal Stopper®
(Covers 3, 4, 7, 8)

This indoor/outdoor cover helps stop false fire alarms and can protect Stopper Stations against damage as
well as malicious or accidental activation. It consists of a clear polycarbonate shield that fits easily over any STI
Stopper Station model. When it is lifted to gain access to the Stopper Station, the optional piercing 105 dB warning
horn sounds. Legitimate activation is not affected. The protective cover options include: dome or low profile,
with or without horn, flush mount, surface mount.

Additional labeling may be placed on the Universal Stopper.

Note:

Stopper Station #7 button is UL/cUL Listed for outdoor use without a cover. All others are approved for outdoor use with an outdoor rated protective cover. Excludes pneumatic button.
